

Model Selection Scores

- LinearRegression: 0.7718
- DecisionTreeRegressor: 0.9804
- RandomForestRegressor: 0.9911
- GradientBoostingRegressor: 0.9878

Evaluation Metrics

- r2_score: 0.9934

- mae: 1.5972

- rmse: 2.2156

Key Insights

- 'Quantity' has a strong influence on the prediction (importance score: 0.316).
- 'Sales' has a strong influence on the prediction (importance score: 0.203).
- 'gross income' has a strong influence on the prediction (importance score: 0.171).
- 'Tax 5%' has a strong influence on the prediction (importance score: 0.155).
- 'cogs' has a strong influence on the prediction (importance score: 0.147).
- Model explains 99.3% of the variance — strong fit.
